2023 Legislative Session Overview: Ms. Lottridge gave an overview of the following legislation:

H0074- this legislation creates a universal work recognition licensure pathway for individuals with four years of work experience in the military, another state, district, or territory of the United States that does not require a license to regulate that person's profession or occupation but for which Idaho uses a license to regulate a profession or occupation.

H0003- this bill removes an outdated requirement for a licensed physician to obtain supervising physician registration when supervising interns, residents, and other medical personnel.

H0028- The proposed legislation creates the Idaho Allied Health Professionals Board by combining the physical therapy licensure board, dietetic licensure board, occupational therapy licensure board, board of athletic trainers, and respiratory therapy licensure board into a single board to regulate physical therapists, dietitians, occupational therapists, athletic trainers, and respiratory therapists. This was held in committee and DOPL will continue to work with stakeholders through the summer on this matter.

SharePoint Update: Ms. Lottridge stated that the staff is working on switching to a SharePoint platform which will make it easier for the Board Members to review their Board meeting documents.

Public Comment: Jess Kerns, IATA President, addressed the Board.
