BOARD BUSINESS

Dr. Chopski reviewed the Zero Based Regulation (ZBR) process and presented the Board with seven Rules to review in the final stage of the first pass through the complete Rules chapter.

OFFICE LOCATED AT:
11341 W. CHINDEN BLVD., BLDG. 4
BOISE, ID 83714

Rule 390: Recommended to streamline existing language regarding the use of titles, abbreviations, and designations for the practice of nursing. Ms. Watson stated that the title of Graduate Nurse is historic language and not widely used in practice, Ms. Pisca concurred. Ms. Permann relayed that the title is used in her practice location of American Falls, but she agreed the term is antiquated and could be removed.

Rule 400: Recommended to strike subsections c and e, as employment policies and procedures do not set the scope of practice as a matter of law. Rule 400 is otherwise well known and will not be renamed or revised.

Rule 401: Recommended the rule will be struck, as 01 is duplicative, 02 is a partial list of duties, and 03 and 04 are set by employers.

Rule 402: Recommend it be condensed into one sentence rather than a list.

Rule 460: Recommended it be struck as it is the LPN version of Rule 401, 01 is duplicative and 02 is a partial list of duties.

Rule 491: The suggested revision would incorporate this rule into Rule 076. The Board queried who has statutory authority over technicians and technologists. Ms. Kear stated that the Board has the authority to regulate in these circumstances. There was a discussion on supervision and oversight, which may be clarified with Health & Welfare at a later date. The Board agreed to move this to Rule 76.

Rule 999: Recommended it be struck, as this is covered in Statutes 54-1411 and 54-1414.

The Board gave general consensus to move forward with the recommended changes as drafted.
