#### 012. EXAMINATIONS FOR LICENSURE.

01. Written Examination. Successful completion of the NBDE may be required of all applicants for a license to practice dentistry or a dental specialty. Successful completion of the NBDHE may be required of all applicants for a license to practice dental hygiene. Applicants for dentistry and dental hygiene are required to pass the INBDE or NBDHE. Dental therapists must successfully complete a board-approved written examination. Any other written examination will be specified by the Board.

**O2.** Clinical Examination. All ∆applicants for a license to practice general dentistry, dental hygiene or dental therapy are required to pass a Board-approved clinical examination upon such subjects as specified by the Board. Applicants for dental hygiene and dental therapy licensure—must pass a board-approved clinical local anesthesia examination. Clinical examination results will be valid for licensure by examination for a period of (5) five years from the date of successful completion of the examination.

#### 013. REQUIREMENTS FOR LICENSURE.

Applicants for licensure to practice dentistry must furnish proof of graduation from a school of dentistry program in dentistry, dental hygiene, or dental therapy accredited by CODA at the time of applicant's graduation. Applicants for licensure to practice dental hygiene must furnish proof of graduation from a dental hygiene program accredited by CODA at the time of applicant's graduation. Applicants for licensure to practice dental therapy must furnish proof of graduation from a dental therapy program accredited by CODA at the time of applicant's graduation.

# 014. REQUIREMENT FOR BLS.

Applicants for initial licensure will provide proof of current BLS certification. Practicing licensees must maintain current BLS certification.

## 015. CONTINUING EDUCATION REQUIREMENTS.

A licensee renewing an active status license shall report 30 oral health/health-related continuing education hour credits to the Board of verifiable CE or volunteer practice.

016. – 020. (RESERVED)

#### 021. PROVISIONAL LICENSURE.

This type of license may be granted at the Board's discretion to applicants with active practice within the previous (2) years, current license in good standing in another state, and evidence of not failing an exam given by the Board.

022. VOLUNTEER DENTAL HYGIENE SERVICES.

A person holding an unrestricted active status dental hygiene license issued by the Board may provide dental hygiene services in an extended access oral health care setting without being issued an extended access license endorsement. The dental hygiene services performed are limited to oral health screening and patient assessment, preventive and oral health education, preparation and review of health history, non-surgical periodontal treatment, oral prophylaxis, the application of caries preventive agents including fluoride, the application of pit and fissure sealants with recommendation that the patient will be examined by a dentist;

023. DENTAL HYGIENISTS – LICENSE ENDORSEMENTS.

**Commented [SL2]:** Board approved simplification at their 01/20/2023 meeting.

**Commented [SL3]:** Board approved simplification at their 01/20/2023 meeting.

Commented [SL4]: Board approved to strike rule at their 07/22/2022 meeting. Idaho Code 54-920(6)(c) and 54-920(7)(c) outline Board's authority to issue a provisional license.

**Commented [SL5]:** Board approved to strike rule at their 10/28/2022 meeting. Idaho Code 54-935 and 54-904 outline requirements for volunteer licenses.

Commented [SL6]: Board approved to eliminate the extended access endorsement and revise the restorative endorsement at their 04/14/2023 meeting. Idaho Code 54-904 outlines the authorization for procedures performed under general supervision by a dental hygienist in an extended access setting. Eliminating the endorsement allows for any hygienist to work in an extended access care setting as defined in the dental practice act. Revisions to the restorative endorsement will allow for it's use where it had not previously been utilized.

Section 000 Page 3 YDunbar\_01122023

TI D 1	
The Board m	ay grant license endorsements to qualified dental hygienists as follows:  ( )
	Extended Access Endorsement. Upon application, the Board may grant an extended access
	to a person holding an unrestricted active status dental hygienist's license issued by the Board who factory proof that all of the following requirements are met:
provides sails	
a.	The person has been licensed as a dental hygienist during the two (2) year period immediately
prior to the di	tte of application for an extended access endorsement; ()
———b.	For a minimum of one thousand (1000) total hours within the previous two (2) years, the person
	en employed as a dental hygienist in supervised clinical practice or has been engaged as a clinical
<del>practice educ</del>	ator in an approved dental hygiene school; ( )
е.	The person has not been disciplined by the Board or another licensing authority upon grounds that
<del>bear a demo</del>	astrable relationship to the ability of the dental hygienist to safely and competently practice under
general super	vision in an extended access oral health care setting; and ( )
d.	Any person holding an unrestricted active status dental hygienist's license issued by the Board
	yed as a dental hygienist in an extended access oral health care setting in this state may be granted an
extended acco	ess endorsement without being required to satisfy the experience requirements specified in this rule.
functions und restorative fu by a dentist application, t	Extended Access Restorative Endorsement. Notwithstanding any other provision of these rules, ental hygienist holding an extended access restorative endorsement may perform specified restorative let the direct supervision of a dentist—in an extended access oral health care setting. Permissible actions under this endorsement are limited to the placement of a direct restoration into a tooth prepared and the carving, contouring and adjustment of the contacts and occlusion of the restoration. Upon the Board may grant an extended access—restorative endorsement to a person holding an unrestricted dental hygienist's license issued by the Board who provides satisfactory proof that the following are met:
a. restorative ex	The person has successfully completed the Western Regional Examining Board's a clinical amination or an equivalent restorative examination approved by the Board; and
	The person has not been disciplined by the Board or another licensing authority-upon grounds that strable relationship to the ability of the dental hygienist to safely and competently practice under in an east oral health care setting.
dental hygier endorsement	Renewal. Upon payment of the appropriate license fee and completion of required CE credits a license endorsement, Ae person meeting all other requirements for renewal of a license to practice is also entitled to renewal of a license endorsement for the effective period of the license. An immediately expires and is cancelled at such time as a person no longer holds an unrestricted active requirements for renewal of a license endorsement for the effective period of the license. 024. LIC	ENSURE OF DENTAL SPECIALISTS <mark>.</mark>
01.	Requirements for Specialty Licensure. Each applicant for specialty licensure must have m a CODA accredited dental school-and hold a license to practice general dentistry in the state of

**Commented [SL7]:** Board approved to simplification at their 01/20/2023 meeting.

(

Section 000 Page 4 YDunbar\_01122023

Idaho or another state. The Board may grant licensure in specialty areas of dentistry for which a dentist has and successfully completed a CODA accredited postdoctoral advanced dental education program of at least two full-time

**O2.** Examination. Specialty licensure in those specialties recognized may be granted solely at the discretion of the Board. An examination covering the applicant's chosen field may be required and, if so, will be conducted by the Board or a testing agent. Examination requirements for a Applicants who have met the requirements for licensure as a specialist may be required to pass an examination as follows:

( )

academic years.

b. Applicants who have II passed a general licensure examination not acceptable to the Board, may be required to pass a specialty examination.or. ( )
c. Applicants who are Be certified by the American Board of that particular specialty as of the date of application for specialty licensure—may be granted specialty licensure by Board approval.
03. Limitation of Practice. No dentist may announce or otherwise hold himself out to the public as a specialist unless he has first complied with the requirements established by the Board for such specialty and has been issued a specialty license authorizing him to do so. Any individual granted a specialty license must limit his practice to the specialty(s) in which he is licensed.  ( )  025. SPECIALTY ADVERTISING.
The specialty advertising rules are intended to allow the public to be informed about dental specialties and to require appropriate disclosures to avoid misperceptions on the part of the public.
01. Recognized Specialty License. An advertisement may not state that a licensee is a specialist unless the licensee has been granted a license in that specialty area of dental practice by the Board. Use of words or terms in advertisements such as "Specialist," "Board Certified," "Diplomate," "Practice Limited To," and "Limited To Specialty Of" shall be prima facie evidence that the licensee is holding himself out to the public as a licensed specialist in a specialty area of dental practice.
<b>O2. Disclaimer.</b> A licensee who has not been granted a specialty license by the Board may advertise as being qualified in a recognized specialty area of dental practice so long as each such advertisement, regardless of form, contains a prominent, clearly worded disclaimer that the licensee is "licensed as a general dentist" or that the specialty services "will be provided by a general dentist." Any disclaimer in a written advertisement must be in the same font style and size as that in the listing of the specialty area.
03. Unrecognized Specialty. A licensee may not advertise as being a specialist in or as specializing in any area of dental practice which is not a Board recognized and licensed specialty area unless the advertisement, regardless of form, contains a prominent, clearly worded disclaimer that the advertised area of dental practice is not recognized as a specialty area of dental practice by the Idaho Board of Dentistry. Any disclaimer in a written advertisement shall be in the same font style and size as that in the listing of the specialty area.
<b>026. PATIENT RECORDS.</b> A record must be maintained for each person receiving dental services, regardless of whether any fee is charged.

Applicants who have Ppassed a general licensure examination acceptable to the Board-may be

( )

censure by Board approval.or,

practice to another dentist who will maintain the records.

when spattering of blood or other body fluids is likely.

	g.	Any dental hygiene prohibited duty.	(	)
038. –	040.	(RESERVED)		
041. LOCAL ANESTHESIA.  Dental offices in which local anesthesia is administered to patients shall, at a minimum, have and maintain suction equipment capable of aspirating gastric contents from the mouth and pharynx, a portable oxygen delivery system including full face masks and a bag-valve mask combination capable of delivering positive pressure, oxygenenriched ventilation to the patient, a blood pressure cuff of appropriate size and a stethoscope. ( )				

**Commented [SL12]:** Board approved simplification at their 04/14/2023 meeting. Previous requirements will be moved to Policy in order for the Board to make necessary changes more efficiently.

Section 000 Page 8 YDunbar\_01122023

Persons licensed to practice and dental assistants trained in accordance with these rules may administer nitrous

01. Patient Safety. A dentist must evaluate the patient to ensure the patient is an appropriate

NITROUS OXIDE/OXYGEN.

oxide/oxygen to patients.

candidate for nitrous oxide/oxygen; ensure that any patient under nitrous oxide/oxygen is continually monitored; and ensure that a second person is in the practice setting who can immediately respond to any request from the person administraring the nitrous oxide/oxygen.

**O2.** Required Facilities and Equipment. Dental offices where nitrous oxide/oxygen is administered to patients must have the following: a fail-safe nitrous oxide delivery system that is maintained in working order; a scavenging system; and a positive-pressure oxygen delivery system suitable for the patient being treated.

03. Personnel. For nitrous oxide/oxygen administration, personnel shall include an operator and an assistant currently certified in BLS.

#### 043. MINIMAL SEDATION.

Persons licensed to practice dentistry may administer minimal sedation to patients of sixteen (16) years of age or older following the ADA guidelines as incorporated by reference pursuant to these rules. When the intent is minimal sedation, the appropriate dosing of a single enteral drug is no more than the maximum FDA-recommended dose for unmonitored home use. In cases where the patient weighs less than one hundred (100) pounds, or is under the age of sixteen (16) years, minimal sedation may be administered without a permit by use of nitrous oxide, or with a single enteral dose of a sedative agent administered in the dental office.

**01.** Patient Safety. The administration of minimal sedation is permissible so long as it does not produce an alteration of the state of consciousness in a patient to the level of moderate sedation, general anesthesia, or deep sedation. A dentist must qualify for and obtain a permit from the Board to be authorized to sedate patients to the level of moderate sedation, general anesthesia, or deep sedation. Nitrous oxide/oxygen may be used in combination with a single enteral drug in minimal sedation, except as described in Section 043 of these rules. Notwithstanding any other provision in these rules, a dentist must initiate and regulate the administration of nitrous oxide/oxygen when used in combination with minimal sedation.

O2. Personnel. At least one (1) additional person currently certified in BLS must be present in addition to the dentist.

## 044. MODERATE SEDATION, GENERAL ANESTHESIA AND DEEP SEDATION.

Dentists licensed in the state of Idaho cannot may administer moderate sedation, general anesthesia, or deep sedation in the practice of dentistry unless following the ADA guidelines incorporated by reference pursuant to these rules once they have obtained a permit from the Board. A moderate sedation permit may be either enteral or parenteral. A dentist may not administer moderate sedation to children under sixteen (16) years of age and one hundred (100) pounds unless they have qualified for and been issued a moderate parenteral sedation permit. A moderate enteral sedation permit authorizes dentists to administer sedation by either enteral or combination inhalation-enteral routes of administration. A moderate parenteral, general anesthesia, or deep sedation permit authorizes a dentist to administer sedation by any route of administration. To qualify for a moderate, general anesthesia, or deep sedation permit, a dentist must provide proof of the following:

**01. Training Requirements**. For Moderate Sedation Permits, completion of training in the administration of moderate sedation to a level consistent with requirements established by the Board within the five (5) year period immediately prior to the date of application. For General Anesthesia and Deep Sedation Permits, completion of an advanced education program accredited by CODA that affords comprehensive training necessary to administer and manage deep sedation or general anesthesia within the five (5) year period immediately preceding the date of application. The five (5) year requirement is not applicable to applicants who hold an equivalent permit in another state which has been in effect for the twelve (12) month period immediately prior to the application date. Qualifying training courses must be sponsored by or affiliated with a dental school accredited by CODA, or be approved by the Board.

<u>02.</u> ACLS. Verification of current certification in ACLS or PALS, whichever is appropriate for the patient being sedated. ( )

03. Sedation Office InspectionStandards. The qualified dentist is responsible for the sedative

**Commented [SL13]:** Board approved simplification at their 04/14/2023 meeting. Previous requirements will be moved to Policy in order for the Board to make necessary changes more efficiently.

**Commented [SL14]:** Board approved simplification at their 04/14/2023 meeting. Previous requirements will be moved to Policy in order for the Board to make necessary changes more efficiently.

Section 000 Page 9 YDunbar\_01122023

management, adequacy of the facility and staff, diagnosis and treatment of emergencies related to the administration of moderate sedation, general anesthesia, or deep sedation and providing the equipment, drugs and protocol for patient rescue. Evaluators appointed by the Board will inspect the adequacy of the facility and competence of the
sedation team prior to issuance of a moderate, general anesthesia, or deep sedation permit and at intervals not to
exceed five (5) years. For general anesthesia and deep sedation, the Board adopts the standards incorporated by
reference in these rules, as set forth by the AAOMS in their office anesthesia evaluation manual.
a. Facility, Equipment and Drug Requirements. The following facilities, equipment and drugs must be available for immediate use during the sedation and recovery phase:
i. An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least two (2) individuals to freely move about the patient;
ii. An operating table or chair that permits the patient to be positioned so the operating team can
maintain the patient's airway, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;  ( )
iii. A lighting system that permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;
iv. Suction equipment that permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;
v. An oxygen delivery system with adequate full face mask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;
vi. A recovery area that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area can be the operating room ( )
vii. A sphygmomanometer, pulse oximeter, oral and nasopharyngeal airways, supraglottic airway devices, and automated external defibrillator (AED); and
viii. Emergency drugs including, but not limited to, pharmacologic antagonists appropriate to the drugs used, bronchodilators, and antihistamines.
ix. Additional emergency equipment and drugs required for moderate parenteral sedation permits include precordial/pretracheal stethoscope or end tidal carbon dioxide monitor, intravenous fluid administration equipment, vasopressors, and anticonvulsants.
x. Additional emergency equipment and drugs required for general anesthesia and deep sedation permits include precordial/pretracheal stethoscope and end-tidal carbon dioxide monitor, intravenous fluid administration equipment, vasopressors, and anticonvulsants.
b. Personnel ( )
i. For moderate sedation, the minimum number of personnel is two (2) including: the operator and one (1) additional individual currently certified in BLS.
ii. For general anesthesia or deep sedation, the minimum number of personnel is three (3) including the operator and two (2) additional individuals currently certified in BLS. When the same individual administering the general anesthesia or deep sedation is performing the dental procedure one (1) of the additional individuals must be designated for patient monitoring.

01. Permit Renewal. Before the expiration date of a permit, the board will provide notice of renewal to the licensee. Failure to timely submit a renewal application and permit fee shall result in expiration of the permit and termination of the licensee's right to administer sedation. Failure to submit a complete renewal application and permit fee within thirty (30) days of expiration of the permit shall result in cancellation of the permit. Renewal of the

YDunbar\_01122023 Section 000 Page 11

permit will be required every five (5) years. Proof of a minimum of twenty-five (25) continuing education credit hours in sedation which may include training in medical/office emergencies will be required to renew a permit. In For a moderate parenteral, general anesthesia, or deep sedation permit, maintain current certification in ACLS. Reinstatement. A dentist may apply for reinstatement of a canceled or surrendered permit issued by the Board within five (5) years of the date of the permit's cancellation or surrender. Applicants for reinstatement of a sedation permit must satisfy the facility and personnel requirements and verify they have obtained an average of five (5) continuing education credit hours in sedation for each year subsequent to the date upon which the permit was canceled or surrendered. A fee for reinstatement will be assessed. SUSPENSION, REVOCATION OR RESTRICTION OF SEDATION PERMIT. Commented [SL15]: Board approved minor change at The Board may, at any time and for just cause, institute proceedings to revoke, suspend, or otherwise restrict a their 04/14/2023 meeting. sedation permit-issued pursuant to Section 044 of these rules. If the Board determines that emergency action is necessary to protect the public, summary suspension may be ordered pending further proceedings. Proceedings to suspend, revoke or restrict a permit shall be subject to applicable statutes and rules governing administrative procedures before the Board. 047. DETERMINATION OF DEGREE OF SEDATION BY THE BOARD. Commented [SL16]: Board approved striking rule at their In any matter under review or in any proceeding being conducted in which the Board must determine the degree of 04/14/2023 meeting. central nervous system depression, the Board may base its findings or conclusions on, among other matters, the type, and dosages, and routes of administration of drugs administered to the patient and what result can reasonably be USE OF OTHER ANESTHESIA PERSONNEL. 048. Commented [SL17]: Board approved change at their A dentist who does not hold a sedation permit may perform dental procedures in a dental office on a patient who 04/14/2023 meeting. receives sedation induced by an anesthesiologist, a certified registered nurse anesthetist, or another dentist with a 01. Facility, Equipment, Drugs, and Personnel Requirements. The dentist will have the same facility, equipment, drugs, and personnel available during the procedure and during recovery as required of a dentist who has a permit for the level of sedation being provided. Patient's Condition Monitored Until Discharge. The qualified sedation provider who induces sedation will monitor the patient's condition until the patient is discharged and record the patient's condition at discharge in the patient's dental record as required by the rules applicable to the level of sedation being induced. The sedation record must be maintained in the patient's dental record and is the responsibility of the dentist who is performing the dental procedures. Use of Services of a Qualified Sedation Provider. A dentist who intends to use the services of a qualified sedation provider must notify the Board in writing of his intent. Such notification need only be submitted once every licensing period. 04. Advertising. A dentist who intends to use the services of a qualified sedation provider may advertise the service provided so long as each such advertisement contains a prominent disclaimer that the service "will be provided by a qualified sedation provider." 049. INCIDENT REPORTING. Commented [SL18]: Board approved removing require-Dentists must report to the Board, in writing, within seven (7) days after the death or transport to a hospital or ment that this is only for patients that sedation was admin-

sedation was administered.

Section 000

#### 050. - 055.(RESERVED)

# UNPROFESSIONAL CONDUCT. 056 A licensee shall not engage in unprofessional conduct in the course of his practice. Unprofessional conduct by a person licensed under the provisions of Title 54, Chapter 9, Idaho Code, is defined as, but not limited to, one (1) of the following: 01. Fraud. Obtaining fees by fraud or misrepresentation, or over-treatment either directly or through an insurance carrier. Unlicensed Practice. Employing directly or indirectly any suspended or unlicensed individual as defined in Title 54, Chapter 9, Idaho Code. 03. Unlawful Practice. Aiding or abetting licensed persons to practice unlawfully. 04. Dividing Fees. A dentist shall not divide a fee for dental services with another party, who is not a partner or associate with him in the practice of dentistry, unless: The patient consents to employment of the other party after a full disclosure that a division of fees a. will be made; The division is made in proportion to the services performed and responsibility assumed by each b. dentist or party. Prescription Drugs. Prescribing or administering prescription drugs not reasonably necessary for, or within the scope of, providing dental services for a patient. A dentist may not prescribe or administer prescription drugs to himself. A dentist shall not use controlled substances as an inducement to secure or maintain dental patronage or aid in the maintenance of any person's drug addiction by selling, giving or prescribing prescription drugs. Harassment. The use of threats or harassment to delay or obstruct any person in providing evidence in any possible or actual disciplinary action, or other legal action; or the discharge of an employee primarily based on the employee's attempt to comply with the provisions of Title 54, Chapter 9, Idaho Code, or the Board's Rules, or to aid in such compliance. 07. Discipline in Other States. Conduct himself in such manner as results in a suspension, revocation or other disciplinary proceedings with respect to his license in another state. 08. Altering Records. Alter a patient's record with intent to deceive. Office Conditions. Unsanitary or unsafe office conditions, as determined by the customary practice and standards of the dental profession in the state of Idaho and CDC guidelines as incorporated by reference in these rules. Abandonment of Patients. Abandonment of patients by licensees before the completion of a phase of treatment, as such phase of treatment is contemplated by the customary practice and standards of the dental profession in the state of Idaho, without first advising the patient of such abandonment and of further treatment that is necessary. 11. Use of Intoxicants. Practicing while under the influence of an intoxicant or controlled substance where the same impairs the licensee's ability to practice with reasonable and ordinary care. Mental or Physical Condition. The inability to practice with reasonable skill and safety to patients by reason of age, illness, or as a result of any mental or physical condition.

Commented [SL19]: Board approved edit to 056.022 at their 04/14/2023 meeting.

(

13. Consent. Revealing personally identifiable facts, data or information obtained in a professional capacity without prior consent of the patient, except as authorized or required by law.	ıl )
14. Scope of Practice. Practicing or offering to practice beyond the scope permitted by law, of accepting and performing professional responsibilities that the licensee knows or has reason to know that he or she is not competent to perform.	
<b>15. Delegating Duties</b> . Delegating professional responsibilities to a person when the license delegating such responsibilities knows, or with the exercise of reasonable care and control should know, that such a person is not qualified by training or by licensure to perform them.	
16. Unauthorized Treatment. Performing professional services that have not been authorized by the patient or his legal representative.	e )
17. Supervision. Failing to exercise appropriate supervision over persons who are authorized to practice only under the supervision of a licensed professional.	o )
18. Legal Compliance. Failure to comply with any provisions of federal, state or local laws, statutes rules, and regulations governing or affecting the practice of dentistry, or dental hygiene, or dental therapy. (	s, )
<b>19. Exploiting Patients</b> . Exercising undue influence on a patient in such manner as to exploit patient for the financial or personal gain of a practitioner or of a third party. (	a )
<b>20. Misrepresentation</b> . Willful misrepresentation of the benefits or effectiveness of dental services.	)
<b>21. Disclosure.</b> Failure to advise patients or their representatives in understandable terms of the treatment to be rendered, alternatives, the name and professional designation of the provider rendering treatment and disclosure of reasonably anticipated fees relative to the treatment proposed.	
<b>22. Sexual Misconduct</b> . Making suggestive, sexual or improper advances toward any patient perso or committing any lewd or lascivious act upon or with any patient person in the course of dental practice. (	<u>n</u> )
23. Patient Management. Use of unreasonable and/or damaging force to manage patients, including but not limited to hitting, slapping or physical restraints.	g )
<b>24.</b> Compliance with Dentist Professional Standards. Failure by a dentist to comply with professional standards applicable to the practice of dentistry, dental hygiene, or dental therapy, as incorporated by reference in this chapter.	
25. Compliance with Dental Hygienist Professional Standards. Failure by a dental hygienist to comply with professional standards applicable to the practice of dental hygiene, as incorporated by reference in this chapter.	
26. Failure to Provide Records to a Patient or Patient's Legal Guardian. Refusal or failure to provide a patient or patient's legal guardian with records within five (5) business days. A patient or patient's legal guardian may not be denied a copy of his records for any reason, regardless of whether the person has paid for the dental services rendered. A person may be charged for the actual cost of providing the records but in no circumstances may a person be charged an additional processing or handling fee or any charge in addition to the actual cost.	al e o
27. Failure to Cooperate with Authorities. Failure to cooperate with authorities in the investigation of any alleged misconduct or interfering with a Board investigation by willful misrepresentation of facts, willful failure to provide information upon request of the Board, or the use of threats or harassment against any patient of witness to prevent them from providing evidence.	1
