

RECIPROCITY AGREEMENT

RECIPROCITY AGREEMENT
BETWEEN THE STATE OF MONTANA
AND THE STATE OF IDAHO
REGARDING JOURNEYMAN PLUMBERS

This agreement supersedes any previous agreement concerning this subject matter.

Persons holding a Journeyman Plumber's Certificate of Competency in one signatory State may obtain a reciprocal certificate in another signatory State by meeting the following requirements:

1. The person seeking a reciprocal certificate of competency shall make application on a form provided by the State of application.
2. The applicant shall document experience by verification from previous employers. Records available from the State where the applicant currently holds a certificate of competency may be accepted by the State of application.
3. The applicant shall meet the experience requirements for a certificate of competency of the State of application.
4. An applicant for a reciprocal certificate shall be a resident of the State in which he or she holds his or her certificate by reciprocity to another State. A certificate by reciprocity shall not be granted to an individual residing in the State to which he or she is making application at the time he or she makes said application.
5. No reciprocal certificate shall be issued to anyone who does not hold an original license from a signatory State.
6. Once an individual has made application for a certificate by examination, a certificate may be granted to such individual only by examination, and he or she may not subsequently apply to that State for a certificate by reciprocity.
7. No written examination shall be required for the reciprocal certificate.

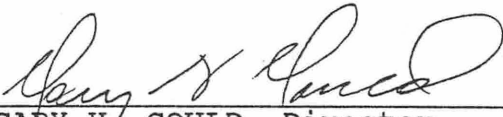

8. All applicants shall pay the applicable examination fees and shall pay the certificate fees of the State of application.

Each signatory Board shall maintain such permanent records of applicants for the Journeyman Plumber Certificate of Competency as necessary to document qualifications, verified-experience records, education, tests taken, and scores received for a period corresponding to each signatory's requirements but not less than five years.

This Agreement becomes effective on or before January 1, 1987. This Agreement may be terminated by any signatory State upon thirty-days' written notice.
