DIVISION BUSINESS

Finance Report: Administrative Bureau Chief (BC) Katie Stuart provided a financial update. The Board discussed the impact of applications, licenses, and the new licensing software on the Board's finances. BC Stuart will provide further financial updates at the next regularly scheduled meeting.

BOARD BUSINESS

Guidance Documents: Executive Officer (EO) Jessica Spoja briefly brought up the guidance documents, acknowledging the Board Members' interest in reviewing them before discussion. Therefore, this topic will be added to the agenda for the next board meeting.

Case Closure Delegated Authority: EO Spoja asked the Board Members to authorize the BCRE Licensing staff to handle the routine case closures and correspondence with licensees, instead of presenting them for review by the Board. Cases with unresolved issues will continue to be brought before the Board for decisions.

A motion was made and seconded to delegate the authority to close cases to DOPL staff and send letters to licensees. The motion carried unanimously.

EO Spoja will present a draft letter at the next Board meeting for the Board's consideration and vote.

Backflow Prevention Exam Provider: EO Spoja discussed the Backflow Assembly Tester Performance Exam proposed by Leslie Wilder, BAT & Supply, LLC. Since Ms. Wilder was not present, this topic will be tabled until the next Board meeting.

Cross-Connection Control Specialist: Chairman Stuart stated there was nothing to discuss at this time; however, would like to keep this topic on the agenda until further notice.

WWP Webpage Review: EO Spoja presented the Board's new website on the screen, noting its resemblance to other DOPL boards' websites. Development testing on DOPL's new licensing system, OASIS, will wrap up next week, and will be included on the agenda for the next meeting. A statement that the Board does not endorse approved training courses will be added to the website. Additional discussion was on audits, summary of findings, and continuing education approval. The Continuing Education Supervisor will be invited to the next meeting for further discussion. Board Member Niki Summers addressed concern on where to schedule an exam on the Board's website, which is linked to PSI's website. EO Spoja will contact the testing agency and navigate through the arduous process of arranging an examination.

Licensing Data Report: At the last meeting a question arose concerning the variance in application timelines. Until the implementation of the OASIS system in July 2024, there are no reporting capabilities available to consolidate information.

Application Review: Applications were reviewed under Executive Session.

Public Comments: Idaho Rural Water Association Presentation: EO Spoja addressed a presentation she made at a recent Idaho Rural Water Association meeting, which included rule changes that might impact the industry. The industry brought forth concerns on the application process, OASIS, and endorsement.

Reciprocity: EO Spoja suggested the Board consider reciprocity agreements between Washington, Oregon, and California, and offered to contact her counterparts in those states. This topic to be discussed at the next Board meeting.
