When an outfitter is making zero (0) or negligible use of major licensed activities for any two (2) of the three (3) preceding years unless the lack of use is due to an act of nature or because of state or federal agency restrictions on hunting or fishing that limit the ability of the outfitter to seek and accommodate clients; (4-6-23)

b. Zero (0) use. No recorded use by an outfitter of their licensed area or activities; (4-6-23)

203. OPERATING AREA.

An outfitter's operating area may be adjusted for reasons of wildlife and fish conservation, where territorial conflict exists, or for the safety of persons utilizing the services of outfitters. Special circumstances may also warrant short term modification of an outfitters operating area. (4-6-23)

Any change(s) in the environmental condition(s), in the manner or amount of public use of the operating area and/or in a licensee's manner of operation within the operating area, that pose a threat to the health and safety of persons using the operating area may result in a change in the outfitters operating area. (4-6-23)

04. Hot Pursuit. (4-6-23)

a. For changes of operation under Subsections 04 and 05 of this Rule, written permission from all outfitters licensed for the species in the hunt area being requested and all applicable landowners or land managers will be provided to the Board. (4-6-23)

b. For changes under Subsection 04 and 05 of this Rule, under special circumstances the Board may waive the requirement of approval from the overlapping outfitter(s). (4-6-23)

c. For changes under Subsection 05 of this Rule, no compensation is permitted between outfitters participating in the conduct of a controlled hunt in another outfitter's area, unless the outfitter supplies a service for that compensation. (4-6-23)

06. Overlap Predator Areas. The Board may authorize outfitters to enter into a standing agreement with each other and the appropriate land manager(s) allowing the outfitters to hunt wolf, mountain lion, or black

bear across multiple operating areas. (4-6-23)

204. OUTFITTER BUSINESS PURCHASE, LICENSE CONSIDERATIONS.

The sale of an outfitting business requires an application for a new outfitter license by the purchaser, provided that the Board may give priority for licensure to an applicant who has negotiated an agreement related to a sale with a licensee if the applicant meets all other requirements or upon documentation from a court. The Board may consider prior non-use of licensed operating area or activities when evaluating priority for licensure or placing conditions on a license. (4-6-23)

205. AVAILABILITY OF OUTFITTING OPPORTUNITIES.

Except as provided in other sections of this chapter, when a new opportunity or existing opportunity which had previously been licensed to another outfitter becomes available, the Board may use a competitive application process through a waiting list, public notice, or both to select a qualified applicant. A competitive application process may be coordinated with another governmental agency that has management or permitting authority over the opportunity. (4-6-23)

01. Waiting List. The waiting list will be maintained for each individual river, lake and reservoir outlined in Section 259 and for each specific IFGC unit listed in IDAPA 13.01.08, "Rules Governing Taking of Big Game Animals." (4-6-23)

02. Placement on Waiting List. A written request, in a form specified by the Board, must be submitted to be placed on the waiting list, and a name on the waiting list will be maintained for a period of five (5) years or until December 31 of the fifth year that the name is placed on the list, whichever comes first. (4-6-23)

03. Notification. When public notice is used when an opening occurs, a public announcement will be made via the Board's website and may be made in conjunction with notice by another governmental agency. Persons on the waiting list will be notified of the available opportunity in any competitive application process. (4-6-23)

04. Application Period and Consideration. Anyone wishing to apply for the opportunity must submit a complete application or amendment, ~~including all applicable fees~~, by the date specified in the notice. 206. BOAT EQUIPMENT REQUIREMENTS.

Each float or power boat used by an outfitting operation must be identified as follows: (4-6-23)

01. Identification. Identification recorded with the Board on the outfitter application consisting of words, names, or letters not less than three (3) inches in height and be of a contrasting color indicating the current licensed outfitter and that is placed above the water line on each side of the bow or stern of the boat utilized by that outfitter in letters. (4-6-23)

02. Clearwater. On Sections CL2 and CL3 of the Clearwater River, a sticker affixed to the surface of any boat used for anadromous fishing that is not less than eight (8) inches in height and placed immediately adjacent to the identification words, names or letters on each side of the boat towards the bow, identifying the boat as operated by a licensed outfitter. Stickers will be provided and sold annually by the Board or a vendor designated by the Board. (4-6-23)

207. BOAT TRANSPORT OF HUNTING CLIENTS.

A boatman licensee (either power or float) must not transport big game hunters to any big game hunting area unless licensed to outfit for big game hunting in that area or has entered into an agreement with the licensed outfitter hunting for that area. (4-6-23)

208. – 256. (RESERVED)

257. DESIGNATION OF ALLOCATED DEER AND ELK TAGS.

For the purposes of this section, an outfitting operation is an outfitter licensee whose licensed activities include

hunting for the species in the area of the allocated tag being designated. When IFGC allocates tags, the allocated tags will be designated pursuant to Section 36-2120, Idaho Code, and this rule. The designation applies for the next season unless IFGC adjusts the number of allocated tags for the hunt. (4-6-23)

01. Notification. All notices, orders, or other documents may be made to the email address on file with the Board. (4-6-23)

02. Outfitted Hunter Tag Use History. Each outfitter's hunter tag use history will be determined from the use recorded by IFGC pursuant to Section 36-408(4), Idaho Code, and as may be adjusted as a result of a tag transfer or hardship request that is approved by the Board. (4-6-23)

a. Transfers. An outfitting operation is credited for use of an allocated tag that it transfers to another outfitting operation for use that year in the same hunt. The receiving outfitting operation is not credited for using the transferred tag. (4-6-23)

b. Surrenders. An outfitting operation may surrender a designated allocated tag(s) to the undesignated tag pool for use by any outfitting operation in the same hunt. The surrendering outfitting operation is not credited for use of the surrendered tag unless it later uses the tag from the pool. (4-6-23)

03. New Hunt Allocated Tag Designation. When the IFGC allocates tags for a newly capped or controlled hunt, the allocated tags will be designated proportionately as follows: (4-6-23)

a. Divide each outfitting operation's base allocation by the total of all base allocations in the hunt, resulting in a percentage of total use. Truncate the decimal at the hundredths place. (4-6-23)

b. Multiply the percentage of total use from Subsection 257.03.a. of these rules by the total number of allocated tags for the hunt, which determines the number of allocated tags designated to the outfitting operation. (4-6-23)

04. Use of Previously Designated Allocated Tags. For established capped or controlled hunts, allocated tags will first be designated to each outfitting operation in an amount equal to the outfitting operation's use of the allocated tags previously designated to it for the same hunt. (4-6-23)

a. In a capped hunt, the use of previously designated allocated tags is the average use of allocated tags in the preceding two (2) years; in the event that IFGC adjusts the number of allocated tags in a hunt where there is only one (1) year of allocation, the Board will not average the use. (4-6-23)

b. In a controlled hunt, the use of previously designated allocated tags is the highest year of use of allocated tags in the preceding two (2) years. (4-6-23)

05. Remaining or Additional Allocated Tags. Allocated tags not designated above will be designated proportionately as follows: (4-6-23)

a. Subtract each outfitting operation's use of previously designated allocated tags from Subsection 257.04 from its base allocation number to determine the number of non-allocated tags it used for a capped hunt or the matching hunt with non-allocated tags for a controlled hunt, when necessary to determine non-allocated tag use; then (4-6-23)

b. Divide the result by the total number of non-allocated tags used by all outfitting operations, resulting in a percentage of the total non-allocated tags used by outfitting operations in that hunt. Truncate the decimal at the hundredths place; and finally (4-6-23)

c. Multiply the percentage of total use from Subsection 257.05.b. by the number of allocated tags yet to be designated, which determines the number of allocated tags designated to the outfitting operation. (4-6-23)

06. Rounding. If allocated tag designation results in a partial tag, the calculation will be rounded up

when a decimal equals or exceeds six tenths (0.6) and rounded down when a decimal is less than six tenths (0.6). When calculating after a reduction of allocated tags pursuant to Section 36-2120(4), Idaho Code, the calculation will be rounded up when a decimal equals or exceeds five tenths (0.5) and rounded down when a decimal is less than five tenths (0.5). (4-6-23)

07. Tie-breaker. If, after applying Subsections 257.03 through 06, there is a surplus or deficit of allocated tags to be designated, the unrounded proportion from Subsection 257.05, with as many decimal places as necessary, will be used, and then as follows: (4-6-23)

a. After a reduction in allocated tags, surplus tags will first be designated in amounts to restore outfitter operations to the number of tags that would have otherwise been designated pursuant to Subsection 257.04 or as close thereto as practicable. (4-6-23)

b. If a surplus, the outfitting operation whose unrounded proportion is the greatest will be designated one (1) tag, and if there are additional surplus tags, the outfitter with the next greatest unrounded proportion will be designated one (1) allocated tag, and repeated in descending unrounded proportions until all surplus tags are designated. In the event there is more than one outfitting operation with the same unrounded proportion and there are insufficient undesignated tags to designate to each outfitter, the undesignated tag will be designated based on a random drawing between those outfitting operations. (4-6-23)

c. A deficit will be resolved from the outfitting operation whose unrounded proportion is closest to six tenths (0.6), and then next closest to six tenths (0.6) when there is a deficit of more than one (1) allocated tag. If there is more than one (1) outfitting operation with the same unrounded proportion, a random drawing will be held between those outfitters. (4-6-23)

08. Stipulation by Outfitters. Outfitting operations in a hunt may submit to the Board a written stipulation determining the number of allocated tags designated to each outfitting operation in that hunt. The stipulation must be signed by all eligible outfitting operations for the hunt; however, under special circumstances, the Board may waive the requirement of approval from all other outfitting operations. If the Board approves the stipulation, the stipulation will be effective until the next designation of allocated tags for the hunt. On or before November 1 preceding the hunt, any outfitting operation may petition the Board to vacate the stipulation for good cause that would make it unconscionable or unjust to enforce the stipulation. If the Board vacates the stipulation, the allocated tags in that hunt will be designated pursuant to Section 36-2120, Idaho Code, and this rule. (4-6-23)

09. Undesignated Tag Pool. Any designated allocated tags that are surrendered or have not been utilized by an outfitting operation on or before July 16 or the next business day for a capped hunt, or on or before September 10 or the next business day for a controlled hunt, will be available in an undesignated pool for any outfitting operation, as follows: (4-6-23)

a. Beginning April 10 preceding the hunt, an outfitting operation may submit a request for an allocated tag from the pool. The request must be on a Board-approved form. (4-6-23)

b. Beginning April 20 preceding the hunt, or next business day thereafter, until July 16, allocated tags will be designated from the pool on a first-come, first-served basis. ~~an allocated tag will be designated from the pool on a first-come, first-served basis to an outfitting operation without any designated allocated tags or which has utilized all of its designated allocated tags, using a waiting list when necessary. A maximum of two (2) allocated tags will be designated to each requesting outfitting operation until all other requesting outfitting operations have been served, then a requesting outfitting operation is eligible to receive a maximum of two (2) additional allocated tags from the pool, repeated until all requesting outfitting operations are served or until no tags remain.~~ (4-6-23)

c. No tags designated from the pool will be considered for historical use calculations until all tag transfers are recorded and all hardship requests have been resolved. (7-1-24)

d. After July 16 preceding the hunt, or the next business day thereafter, allocated tags will be designated from the pool on a first-come, first-served basis to an outfitting operation who has submitted a request for allocated tags from the pool. Initially, a maximum of two (2) allocated tags may be granted to each requesting

outfitting operation that either lacks designated tags or has used, without transferring, all of its designated tags. In cases where there are more requesting operations than available tags, the allocation will prioritize outfitting operations with no designated tags, ensuring they receive two tags each until all such operations are served. Once all operations without designated tags have been served, any remaining allocated tags will be distributed among all requesting operations, including those with previously allocated tags, on a first-come, first-served basis, with a maximum of two (2) tags per operation per round of distribution. This process will continue until all requested tags have been allocated.

e. (4-6-23)
