AGENDA ITEM 3.

Tag Designation Training

PURPOSE

This is an informational presentation designed to provide context for the new board members related to outfitter tag designations and how the calculations work.

ACTION REQUIRED

Informational only, no action needed.

REFERENCE

Rule references throughout the presentation come from IDAPA 24.35.01.257.

02. Outfitter Hunter Tag Use History

- Each outfitter’s hunter tag use history will be determined from the use recorded by IFGC (Idaho Fish & Game Commission) pursuant to Section 36-408(4), Idaho Code, and may be adjusted as a result of a tag transfer or hardship request that is approved by the Board.
- The first two steps of the calculation are based on outfitter tag use for both allocated and non-allocated tags.
- Use is entered in their respective types from the previous two years of use.

Allocated Use		Non-Allocated	
2023	2024	23	24

04. Use of Previously Designated Allocated Tags

- For established capped or controlled hunts, allocated tags will first be designated to each outfitting operation in an amount equal to the outfitting operation's use of the allocated tags previously designated to it for the same hunt.
- a. In a capped hunt, the use of previously designated allocated tags is the average use of allocated tags in the preceding two (2) years; in the event that IFGC adjusts the number of allocated tags in a hunt where there is only one (1) year of allocation, the Board will not average the use.
- b. In a controlled hunt, the use of previously designated allocated tags is the highest year of use of allocated tags in the preceding two (2) years.

Allocated Use		Non-Allocated		Designation 1
2023	2024	23	24	Rounded Avg Allocated Use
				0

06. Rounding

- If allocated tag designation results in a partial tag, the calculation will be rounded up when a decimal equals or exceeds six tenths (0.6) and rounded down when a decimal is less than six tenths (0.6). When calculating after a reduction of allocated tags pursuant to Section 36-2120(4), Idaho Code, the calculation will be rounded up when a decimal equals or exceeds five tenths (0.5) and rounded down when a decimal is less than five tenths (0.5).

05. Remaining or Additional Allocated Tags

- If any tags remain to be designated after the first step, then we designate the remaining tags based on the historical use of non-allocated tags.
- a. Subtract each outfitting operation's use of previously designated allocated tags from Subsection 257.04 from its base allocation number to determine the number of non-allocated tags it used for a capped hunt or the matching hunt with non-allocated tags for a controlled hunt, when necessary to determine non-allocated tag use; then
- b. Divide the result by the total number of non-allocated tags used by all outfitting operations, resulting in a percentage of the total non-allocated tags used by outfitting operations in that hunt. Truncate the decimal at the hundredths place; and finally
- c. Multiply the percentage of total use from Subsection 257.05.b. by the number of allocated tags yet to be designated, which determines the number of allocated tags designated to the outfitting operation.

Designation 2		Total Desig
Avg Non-Allo Use	Truncated * Remaining	Des 1 +2
0	0	0

07. Tie-breaker

- If, after applying Subsections 257.03 through 06, there is a surplus or deficit of allocated tags to be designated, the unrounded proportion from Subsection 257.05, with as many decimal places as necessary, will be used, and then as follows:
 - a. After a reduction in allocated tags, surplus tags will first be designated in amounts to restore outfitter operations to the number of tags that would have otherwise been designated pursuant to Subsection 257.04 or as close thereto as practicable.
 - b. If a surplus, the outfitting operation whose unrounded proportion is the greatest will be designated one (1) tag, and if there are additional surplus tags, the outfitter with the next greatest unrounded proportion will be designated one (1) allocated tag and repeated in descending unrounded proportions until all surplus tags are designated. In the event there is more than one outfitting operation with the same unrounded proportion and there are insufficient undesignated tags to designate to each outfitter, the undesignated tag will be designated based on a random drawing between those outfitting operations.
 - c. A deficit will be resolved from the outfitting operation whose unrounded proportion is closest to six tenths (0.6), and then next closest to six tenths (0.6) when there is a deficit of more than one (1) allocated tag. If there is more than one (1) outfitting operation with the same unrounded proportion, a random drawing will be held between those outfitters.

03. New Hunt Allocated Tag Designation

- When the IFGC allocates tags for a newly limited, capped or controlled hunt, the allocated tags will be designated proportionately as follows:
 - a. Divide each outfitting operation's base allocation by the total of all base allocations in the hunt, resulting in a percentage of total use.
 - b. Multiply the percentage of total use from Subsection 257.03.a. of these rules by the total number of allocated tags for the hunt, which determines the number of allocated tags designated to the outfitting operation.

- Tag Designation Letter
 - Once every other year during the spring
 - Once every year in September
- Hardship Notices
- Undesignated Tag Pool
- Transfers

10. Objection to Calculation

- If an outfitting operation believes the calculation is incorrect, it may object by filing a petition with the Board within fourteen (14) days from the date the notification was sent and in accordance with the Idaho Administrative Procedures Act. The petition will include any supporting information or documentation.
- a. All outfitting operations in the hunt in question will be notified of the petition.
- b. The outfitting operation bears the burden of establishing that the calculation was incorrect.

11. Hardship Request

- An outfitting operation may submit a written hardship request to maintain all or a portion of previous outfitted hunter tag use history when the outfitting operation shows good cause that its use of allocated designated tags was impacted by circumstances beyond the outfitting operation's control. The request must be submitted on or before a deadline set by the Board. The outfitting operation must provide information or documentation as requested by the Board to substantiate the request.

08. Stipulation By Outfitters

- Outfitting operations in a hunt may submit to the Board a written stipulation determining the number of allocated tags designated to each outfitting operation in that hunt. The stipulation must be signed by all eligible outfitting operations for the hunt; however, under special circumstances, the Board may waive the requirement of approval from all other outfitting operations. If the Board approves the stipulation, the stipulation will be effective until the next designation of allocated tags for the hunt. On or before November 1 preceding the hunt, any outfitting operation may petition the Board to vacate the stipulation for good cause that would make it unconscionable or unjust to enforce the stipulation. If the Board vacates the stipulation, the allocated tags in that hunt will be designated pursuant to Section 36-2120, Idaho Code, and this rule.

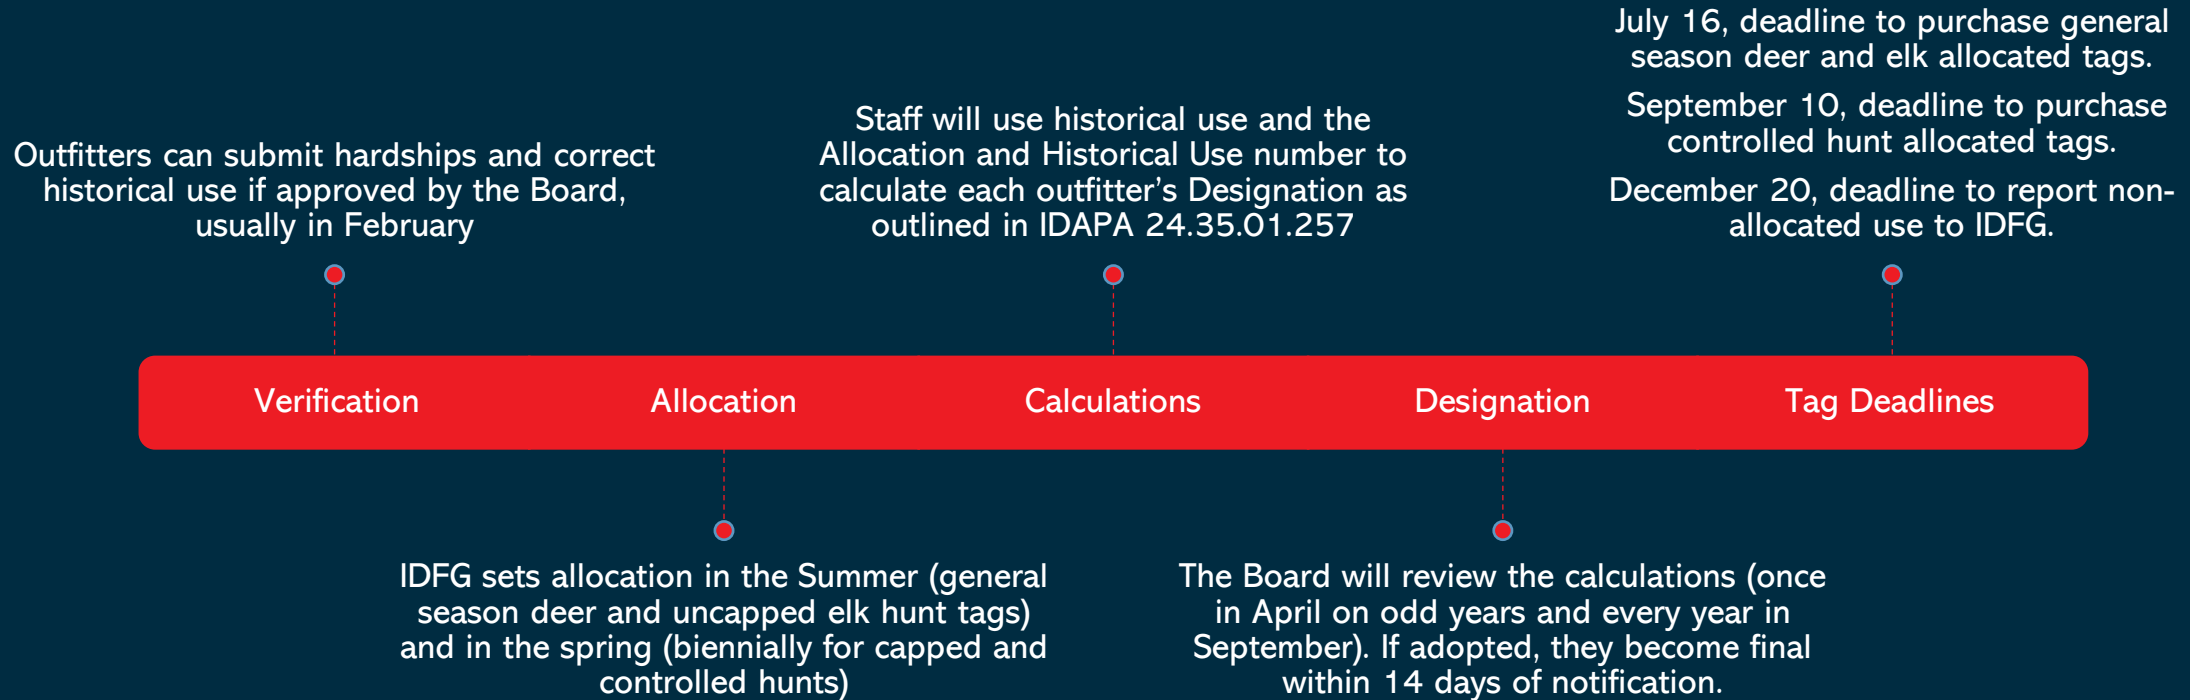

09. Undesignated Tag Pool

- Requests open April 10, staff can start designating from the pool on April 20
- July 16 deadline to use the initial designation, unused tags after this date return to the pool
- July 31 deadline to pick up tags from the pool before they go back to IDFG for sale

12. Change in Operating Area or Owner of Business

- When an outfitting operation is sold or when an operating area is adjusted through a sale and designated allocated tags are associated with the affected operating area, the associated designated allocated tags and tag use history will transfer to the new owner.

AGENDA ITEM 4.

Tag Designation

PURPOSE

The Idaho Department of Fish and Game Commission at its last quarterly meeting, set the 2026 Outfitter Allocation for General Season Deer and Uncapped Elk tags. Per Idaho statute, Title 36, Chapter 21, the board shall designate allocated tags using a formula that prioritizes an individual outfitting operation's use.

ACTION REQUIRED

The Board can approve the calculations done by staff based on the formula that is outlined in IDAPA 24.35.01.257.

Suggested Motions:

I move the Board adopt the calculations as presented by staff and designate general season uncapped Elk Zone A and B tags and regular and white-tailed deer tags for outfitter allocated tags in the 2026 season.

REFERENCE

IDAPA 24.35.01.257. Designation of Allocated Deer and Elk Tags

For the purposes of this section, an outfitting operation is an outfitter licensee whose licensed activities include hunting for the species in the area of the allocated tag being designated. When IFGC allocates tags, the allocated tags will be designated pursuant to Section 36-2120, Idaho Code, and this rule. The designation applies for the next season unless IFGC adjusts the number of allocated tags for the hunt.

Idaho statutes Title 36 Chapter 21

DESIGNATION OF ALLOCATED TAGS. (1) Each time the commission allocates tags, except as provided in subsection (3) of this section, the board shall:

- (a) Designate allocated tags using a formula that prioritizes an individual outfitting operation's use, including the transfer of allocated tags previously designated to it;
- (b) Designate any remaining or additional undesignated allocated tags based on each outfitting operation's base allocation number in comparison to its use of previously designated allocated tags and in proportion to other outfitting operations;
- (c) Incorporate the base allocation number into the formula used to designate allocated tags to each outfitting operation; and

- (d) When reasonably practical to do so, designate allocated tags before the date on which nonallocated tags become available for sale to nonresidents for the hunt in which tags are allocated.

Outfitters and Guides Licensing Board
AGENDA ITEM 8
Disciplinary Matrix Guidelines

PURPOSE

1. The Outfitters and Guides Act, Title 36, Chapter 21, authorizes the Board to revoke, suspend, or restrict the license of an outfitter or guide for due cause. The Board should consider its purpose of safeguarding the health, safety, welfare and freedom from injury or danger of people utilizing the services of outfitters and guides when determining if disciplinary action is appropriate.
 2. These guidelines do not eliminate the Board’s discretion to evaluate the facts of each case and sanction a licensee harsher or more lenient than what the guidelines contemplate. However, deviation from the guidelines should be based upon evidence of mitigating or aggravating factors.
 3. The Board is not limited to only issuing a civil penalty, or only probation. Civil penalties and probationary periods are common forms of discipline that are imposed concurrently.
 4. The Board is also permitted by law to recover its costs and fees incurred in an investigation and prosecution.
-

RECOMMENDED MOTIONS

I move the Board adopt the Disciplinary Matrix Guidelines as drafted (or subject to discussed modifications).

Outfitters and Guides Licensing Board

AGENDA ITEM 11.

Delegated Authority

ISSUE

1. IDAPA 24.35.01.257.11. Hardship Request: This rule states that *the request must be submitted on or before a deadline set by the Board.*

Staff is seeking authority to set the deadline for hardship submissions on the Board's behalf.

2. IDAPA 24.35.01.257.11. Hardship Request: This rule states that outfitters may *request to maintain all or a portion of previous outfitted hunter tag use history when the outfitting operation shows good cause that its use of allocated designated tags was impacted by circumstances beyond the outfitting operation's control.*

Staff is seeking authority to deny requests that do not meet the hardship minimum requirement set in the Rule, such as cases where an outfitter has missed the deadline for reporting tag use to IDFG.

RECOMMENDED MOTIONS

I move the Board delegate authority to the Executive Officer to set the deadline for the submission of hardship requests and to deny requests that do not meet the minimum hardship requirement set in Rule.

REFERENCE

IDAPA 24.35.01.257.11. Hardship Request. An outfitting operation may submit a written hardship request to maintain all or a portion of previous outfitted hunter tag use history when the outfitting operation shows good cause that its use of allocated designated tags was impacted by circumstances beyond the outfitting operation's control. The request must be submitted on or before a deadline set by the Board. The outfitting operation must provide information or documentation as requested by the Board to substantiate the request.
