Idaho Board of Pharmacy

Policy Statement

REINSTATEMENT PETITION INTERVALS FOLLOWING DISCIPLINE

Purpose: To define "reasonable intervals" for the purpose of petitioning for Reinstatement

Policy:

A. Petition for Reinstatement Following Discipline: Reasonable Intervals

Idaho Code. § 54-1728(7) provides that, applicants for reinstatement may petition the Board for reinstatement of a suspended, revoked, or restricted license at "reasonable intervals.

While "reasonable interval" is not expressly defined by statute, the Board has long interpreted that term as requiring a twelve (12) month period. Thus, a person whose license has been disciplined by an order of the Board under Idaho Code. § 54-1726 may apply for reinstatement after an initial period of twelve months, beginning on the date of the disciplinary order, unless otherwise ordered by the Board. Licensees may then continue to apply for reinstatement once every subsequent twelve months.

B. Petition for Reinstatement: Application Requirements

An applicant for reinstatement must submit a complete application form, pay the fees prescribed by the Board, and submit a complete set of fingerprints for a criminal background check along with required paperwork and background check fee.

After evaluation, the Board may deny reinstatement, grant reinstatement, or issue a reinstated license allowing the applicant to practice pharmacy only under specified terms and conditions. In the event that the Board denies a reinstatement, the application for reinstatement is no longer active. In such a case, an applicant petitioning for reinstatement at reasonable intervals, as defined above, must submit a new application for reinstatement that complies with all Board requirements.

Applications for reinstatement are only active for a period of twelve (12) months. If an applicant petitions for reinstatement outside of a reasonable interval, as defined above, and the applicant is consequently unable to appear before the Board within the active life of such application, the applicant forfeits the fees associated with the application and will be required to complete all reinstatement requirements before appearing before the Board again.
